1.25	<p>متن زیر را خوانده و به سوالات پاسخ دهید.</p> <p>Trains leave Moscow almost every day. Book your tickets in advance – don't wait until you arrive in Moscow. You can book online or use a travel agent. There are two options:</p> <p><i>Travel non-stop in seven days.</i> You can sleep and eat on the train. You can talk to other passengers, learn some words in Russian and enjoy the views. The train travels through amazing mountains, beautiful forests and strange deserts.</p> <p><i>Stop on the way and stay in hotels.</i> Go sightseeing in the big cities. In Novosibirsk – the main city in Siberia – there are museums, art galleries, theatres and a famous opera house in the city center. From the towns of Irkutsk or Ulan-Ude, you can take a bus or train to lake Baikal, the deepest lake in the world.</p> <p>a. You can only buy train tickets to Moscow in a travel agency.      True      False b. There is only one way to travel to Moscow.                              True      False c. "passengers" is a synonym for:     1. teachers      2. travelers      3. children      4. women</p> <p>d. What are some tourist attractions of Novosibirsk?</p>	12
1.5	<p>متن زیر را خوانده و به سوالات پاسخ دهید.</p> <p>The world around us is full of amazing things. Knowing this beautiful world is very interesting for humans. One group of people who study the world are scientists. A scientist studies nature, animals, or people. Scientists work hard and do research to solve problems, find facts or invent new things. Scientists learn about the world by observing and experimenting .</p> <p>Some scientists become very famous and rich. Many people around the world may remember their names and faces. But this is not what they call 'success'. They feel successful when they solve problems and find answers to their questions.</p> <p>Scientists love answering to their questions.                              True      False</p> <p>Scientists think success means being rich.                                      True      False</p> <p>Why do scientists try so hard?</p> <p>How do scientists know about the world?</p>	13

The world of science is really amazing. Humans are inventing more and more new things. Most people think that only a clever person can invent, but this is not true. Many of the devices we use in our daily life are actually inventions of some ordinary people and not great scientists.

Toothbrush is a good example. William Addis, a man from London, had an idea that helped him to clean his teeth. He took a small bone, made some small holes in it, and then put some thin hard pieces of plastic in the holes. After a while, he developed this device and started his business of selling these toothbrushes. Soon William became a famous person.

You can be an inventor too. Think about simple things around or problems around you and try to solve them. If it doesn't work at first, don't give up and believe in yourself.
